MAKE THE MOST OF LISTS!

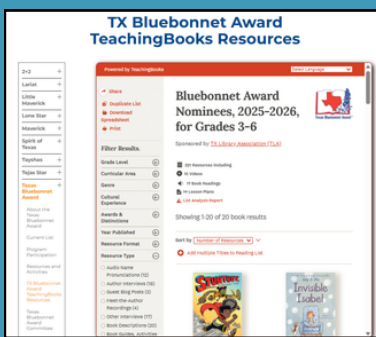

Everyone in your community can access Account-wide lists by logging in and selecting “Your Reading Lists” from the three-line toggle menu in the upper left. Account lists provide easy access to shared titles and resources!

Use the “Share arrow” to share account lists, state lists, custom lists, awards, and more! Find QR code printable options and digital sharing options!

Create bookmarks for any list that you can print and share!

Embed lists on digital pages: in classroom management platforms, on library catalogs, or any digital space! Connect readers to titles and corresponding resources right from where they are.

Analyze lists to get instant and insightful data about recency, reading levels, cultural experiences, genre, and more!
